**IN THE CLAIMS**

The following listing of claims will replace all prior versions, and listings, of claims in the subject application:

**Current Version of Claims**

- 1-3. (Canceled)
4. (Previously Presented) A 3D shutter glass connection system comprising:
  - a shutter glass including a receiver;
  - a control unit including a transmitter for communicating with said receiver,
  - wherein said receiver is detachable from said shutter glass.
5. (Previously Presented) The shutter glass connection system as in claim 4, wherein said shutter glass is detachable.
6. (Previously Presented) The shutter glass connection system as in claim 4, wherein said receiver is a connector plug.
7. (New) The shutter glass connection system as in claim 4, wherein said receiver is an infrared receiver.
8. (New) The shutter glass connection system as in claim 4, wherein said receiver is a radio frequency receiver.
9. (New) The shutter glass connection system as in claim 4, wherein said receiver is interchangeably at least two different types of receivers.
10. (New) The shutter glass connection system as in claim 9, wherein said different types of receivers include one or more of a connector plug, an infrared receiver, or a radio frequency receiver.
